Credit scores

FICO® Score 8

Your score is well below the average score of U.S. consumers and demonstrates to lenders that you are a risky borrower.

What's hurting

— Negative items

You have a serious delinquency or derogatory indicator, public record and/or collection on your credit report.

Number of your accounts that were ever 60 days late or worse or have a derogatory indicator: 2 accounts

Virtually no FICO High Achievers have a 60 days late payment or worse listed on their credit report.

Number of collections on your credit report: 46 collections

Virtually no FICO High Achievers have a public record or collection listed on their credit report.

The presence of a serious delinquency or derogatory indicator and a derogatory public record or collection is a powerful predictor of future payment risk. Most collections, public records and delinquencies stay on the report for no more than seven years - though there are certain items that could remain longer. As these items age, they will have less impact on the FICO® Score. Satisfying the public record or paying off the collection will not remove the item from a credit report. And it will still be considered by a FICO® Score as long as it is reported.

— Bad payment history

You have one or more accounts showing missed payments or derogatory indicators.

Number of your accounts with a missed payment or derogatory indicator: 2 accounts

About 98% of FICO High Achievers have no missed payments at all. But of those who do, the missed payment happened nearly 4 years ago, on average.

The presence of missed and late payments or derogatory indicators on a credit report, including the number of late payments, how late they were and how recently they occurred, are correlated with future credit risk. Your FICO® Score was lowered due to the number of missed and late payments and/or accounts with derogatory indicators reported. As the number of accounts with delinquency or derogatory indicators decreases, they have less impact on a FICO® Score.

— Few accounts paid on time

You have an insufficient number of accounts that are currently paid as agreed.

Number of your accounts currently being paid as agreed: 1 account

FICO High Achievers have an average of 6 accounts currently being paid as agreed.

The FICO® Score considers the number of accounts showing on time payments. Generally, the higher the number reported the lower the risk. Compared to other people with a similar age of credit history, the number of accounts you have that are currently paid as agreed is low.

— Short account history

You have a short credit history.

Your oldest account was opened: 3 Years, 10 Months ago

FICO High Achievers opened their oldest account 25 years ago, on average.

Average age of your accounts: 3 Years, 6 Months

Most FICO High Achievers have an average age of accounts of 9 years or more.

People with longer credit histories who infrequently open new accounts generally pose less risk to lenders. In your case, the age of your oldest account and/or the average age of your accounts is relatively low.

**Disclaimer****About your FICO® Score 8 or other FICO® Scores**

Your FICO® Score 8 powered by Experian data is formulated using the information in your credit file at the time it is requested. Many but not all lenders use FICO® Score 8. In addition to the FICO® Score 8, we may offer and provide other base or industry-specific FICO® Scores (such as FICO® Auto Scores and FICO® Bankcard Scores). The other FICO® Scores made available are calculated from versions of the base and industry-specific FICO® Score models.

Base FICO® Scores (including the FICO® Score 8) range from 300 to 850. Industry-specific FICO® Scores range from 250-900. Higher scores represent a greater likelihood that you'll pay back your debts so you are viewed as being a lower credit risk to lenders. A lower FICO® Score indicates to lenders that you may be a higher credit risk. There are many scoring models used in the marketplace. The type of score used, and its associated risk levels, may vary from lender to lender. But regardless of what scoring model is used, they all have one purpose: to summarize your creditworthiness. Keep in mind that your score is just one factor used in the application process. Other factors, such as your annual salary and length of employment, may also be considered by lenders when you apply for a loan.

What this means to you:

Credit scoring can help you understand your overall credit rating and help companies better understand how to serve you. Overall benefits of credit scoring have included faster credit approvals, reduction in human error and bias, consistency, and better terms and rates for American consumers through reduced costs and losses for lenders. Your lender or insurer may use a different FICO® Score than FICO® Score 8 or other base or industry-specific FICO® Scores provided by us, or different scoring models to determine how you score.
